The promotion of James T. Rogers to the newly-created position of vice president of finance and administration for Dorsey Trailers, Inc., has been announced by George L. Collier, president of the trailer manufacturing firm. Dorsey Trailers is a subsidiary of The Dorsey Corporation.

Rogers, who formerly served as vice president and controller for Dorsey Trailers, is being assigned expanded responsibilities for long-range planning of various administrative functions in addition to those in the financial area, according to Collier.

Effective immediately, Rogers assumes responsibility for Dorsey Trailers' overall financial plans and policies and supporting operating practices. He will retain the controller function and direct all budgeting, tax, audit, accounting, real estate, leasing and insurance activities of the firm.

Rogers added responsibilities for coordinating long-range planning activities include identifying specific growth areas, investigation of opportunities for acquisition and mergers, and evaluation of utilization of corporate physical properties.

Other key areas of responsibility include directing electronic data processing operations and serving as salary administrator.

Rogers joined Dorsey Trailers, Inc. in 1969, following two and one-half years as manager of cost and budgeting for Chattanooga Glass Company. Chattanooga Glass is a former subsidiary of The Dorsey Corporation, which has its headquarters in Chattanooga, Tenn. Rogers worked for about ten years in accounting and other financial areas for Tennessee firms.

tions of education from Troy State University. He holds a B. S. degree in economics and commerce with a major in accounting from the University of Tennessee-Chattanooga.

Earth Moving Machines Level Ground At Site Of New Park

Work Begins On Recreation Park

Initial work has now begun on the construction of a new 40-acre recreation complex on Highway 125, north of Elba, and Recreation Director Dennis Smith reports the first phase of construction should be completed in August.

The first phase includes the construction of three softball fields en-

closed in seven-foot high fences, bleachers, complete lighting facilities, underground irrigation, access roads and a parking area. The cost of the initial phase is \$200,000.

Actual work began on Friday, May 21, and consists of building up the existing roadway, which was badly eroded. The road will be raised eight feet to remove it from a creek bed.

Following completion of the road, the heavy machinery will begin to grade the ball fields to the correct elevation and level off the parking area. The heavy equipment work is estimated to take four weeks, weather permitting, and bids should be opened on fencing, lighting fixtures and bleachers to coincide with the conclusion of the work. Upon completion of the fencing, the

grassing and irrigation will be installed, making a proposed completion date of August 1982. Recreation Director Dennis Smith stated this week, "Construction is progressing well, and right now we're getting the access road completed. The construction will take time, but we are making sure everything is just right. It's just a matter of time."

Briefly....

Streaker Reported In Areas

The recent hot weather was apparently too much for one local man to handle last weekend as he decided to take a ride in the north part of the county in the nude and further cool off by stopping in public places and streaking around his truck!

The Coffee County Sheriff's Department reported this week it had received two complaints on Sunday, May 30, of a nude man stopping his pickup truck and then running around it in full view of witnesses.

The first complaint came at 2:30 p.m. when two ladies working in a garden next to the Jack Assembly of God stated a man drove up to the garden in a pickup truck, jumped out, without any clothes on, ran up to the porch of the church, and then ran back to the truck and drove away.

The second "sighting" took place at approximately 3:00 p.m. at Thames Bridge, located north of the Lee Community, where two girls standing on the bridge reported a man drove up in a pickup truck, jumped out and ran around the truck naked.

The sheriff's department is still investigating the complaints and expect to solve the case quickly.

Cocaine Bust At Basin

Tommy Cauley, age 34, of Rt. 3, Opp, and Susan Woodyard, age 19, of Wyatt Avenue, Opp, were arrested Thursday, May 27, at 8:30 p.m. and charged with the sale of controlled drug substance - cocaine.

The arrest was made by Coffee County Sheriff's Department officials and various state agents, and took place at Cauley's home in the Basin Community in southwest Coffee County.

Both subjects were placed in the Coffee County jail, with bond being set at \$6000 for Cauley and \$2000 for Woodyard. Both were released Friday, May 28, and are awaiting action of the Grand Jury.

Pennell Receives Life

Jim Pennell, convicted recently of first-degree murder in the stabbing death of his wife, was sentenced to life in prison on Tuesday, June 1, by Judge Terry Butts. Pennell was later transferred to the Kilby Correctional Institute, where he will serve his sentence.

Dogs To Be Trained In Elba

The Military Police from Ft. Rucker brought newly-trained "drug-sniffing" dogs to Elba last week to conduct actual field testing at the Coffee County Jail and Elba Work Release Center. The two sites were chosen as training sites in cooperation with county and state officials, and will serve the Military Police in a continuing program in the training of the dogs.

Sheriff Paul To Speak

Coffee County Sheriff Brice Paul will deliver the commencement address on Friday, June 4, when the Southwest Alabama Police Academy holds its graduation exercises in Dothan. Sheriff Paul is a member of the Governor's Commission on Crime, and is current vice-president of the Alabama Sheriff's Association.

Paul To Seek Election

Coffee County Sheriff Brice Paul announced this week that he will file qualifying papers on Wednesday, June 9, to seek a full term as sheriff of Coffee County in the upcoming Democratic primary election.

Paul took office on March 11, 1979, following the assassination of Sheriff Neil Grantham.

"I honestly believe the sheriff's department has made marked improvements during my term in office," said Paul, "and I am seeking a full term to continue these improvements. In the past three years we have increased the number of deputies on the road from four to six, conducted extensive training of our staff at the county jail, strengthened the Sheriff's Reserve Force by equipping all members with radios and putting the men in uniform, and formed the county's first major felony squad."

The sheriff's department has also

taken an active role in community projects to reduce crime," added Paul. "Such as drug dog detention programs for schools and the rural property protection program. We have made major changes in record keeping and hope in the near future to go to a mini-computer system. I am extremely proud of the department's track record in working criminal cases for convictions and have gotten convictions in all major felony cases. During the past 18 months our department has been through seven capital murder cases and all have resulted in convictions."

Sheriff Paul is a graduate of Elba High School. He holds a B. S. degree from Troy State University in criminal justice, has served on the Governor's Commission on Crime, is vice-president of the Alabama Sheriff's Association, is a member of the Fraternal Order of Police, a former Jaycee and attends the First Baptist Church of Enterprise.

Elba Bd. Of Education Awarded \$27,160 In Federal Lawsuit

By NITA LACKEY
A federal district court jury in Dothan has awarded a verdict of \$27,160.00 to the Elba Board of Education against Celotex Corporation. The suit involved a claim by the Board of Education that Celotex failed to maintain the roof on the Elba Middle School.

The Board, in the suit filed in spring of 1981, petitioned the court for \$97,000 in damages. The Board paid for replacement of the middle school roof last summer, which cost \$87,000, according to Supt. John Osburn. An

Exhibit by "interviewing" the school damage to the school resulted from the leaky roof, he added.

The roof was originally installed on

the school when the building was completed in 1972. Celotex was required by contract to maintain a watertight roof on the middle school, according to Osburn. "We felt they had failed to do this," he said.

"We felt we had an excellent case, and that we were well represented by our attorney. The case and facts were very proficiently presented to the judge and the jury. The judgment was awarded by the jury. We were disappointed by the fact that the amount was not greater. But, we understand the judicial system, and when a case goes to the jury they weigh the facts. We will just put this behind us and move on," Osburn said.

BY: NELLIE B. MARTIN

Girl Scout elementary troops No. 441 - 268 - 445, and Junior troops 399 and 446 were ingenious, inventive and resourceful in displaying form, imagination and artistic cleverness at their annual Girl Scout banquet.

This enjoyable affair was held last Monday night in the held Monday night, May 24, in the lunchroom of the elementary school on the Troy Highway. An unusually large group of parents, friends and special guests were present. Mrs. Elaine Semonelle presided.

The long rows of tables were attractively dressed by individual troops in green and white cloths, white ribbon runners were most attractive. At intervals bud vases, Shasta daisies and greenery, added to the decor. Flickering candles in unique holders added a special touch.

The banded food tables were assembled across the back of the room, and held a quantity of food that was more than plentiful and very tasty.

Mrs. Stella Bludworth voiced a prayer of thanksgiving, and special entertainment guests, Steve Thompson's Jazz Band, were served first.

After they had dined, band members assembled on the stage and immediately became a conscientious and scrupulous group applying

their personal feeling and emphatic rhythm. They were lively and exciting, and most of all, enjoyable.

Mrs. Semonelle introduced each troop leader, who in turn presented individual awards. Troops 18 and 23 from Zion Chapel were under the leadership of Mrs. Alice Pilcher and Mrs. Sue Rountz.

I AM

I am what the world is all about

And what causes it to grow. I am the center of all understanding About things you may never know.

I am the cause for many tears and frowns, And the cries that bore the soul.

I am the cause that ends all of this And helps you reach your goal.

I am the touch you feel in the morning And the smell of perfume at night.

I am the happy ending that you really enjoy, And the cause for making it right.

I am always strong and gentle, And I am expected to the highest peak; And I am always gaining

confidence In everything that you seek.

I am the world's most powerful weapon, But never to hurt and deceive; I can be dangerous in many ways, But only if you don't believe.

I am the cause of many to take their lives, And for some it's worth the price.

And once again I am all understanding, And I hope that you think twice.

I am the cause for many wars and afflictions, And the jealousy that made them move, But I am stronger than any maker of wars, And that I don't have to

prove. It's never necessary to put me to the test. Because part of me you share each day. I am always pushing for the good of man In all he does and says.

In each great day and night we live For the King that sits above, He cares about us and many others, Because truly -- I AM LOVE . . .

personal immortal being. "And the Word was God." "All things were made by Him." "In Him was life." In verse 14, same chapter, "the Word was made flesh and dwelt among us." In other words, fathered by God, became human by birth - Jesus Christ.

Man's Need vs. the Animal's

Man was made to need contrasted with animal needs. Animals were created with brains equipped with instinct - man was not. Man was made with a mind, almost totally devoid of instinct. Man's mind, containing knowledge, must think and direct whatever he does. Knowledge was made to need knowledge for relationships in two directions: 1) to work with matter and things; 2) for close relationships with God and also with fellow men.

Man was by creation equipped with a materialistic mind to work with matter and things. IN that area Man has achieved wonders. But his relationship with God and with other humans is a spiritual relationship. This Man will never understand! Adam did not understand it! The most highly-educated today do not understand it.

YOUR CONCEPT OF A CHURCH

Someone has said that there are three basic attitudes that people have toward church. These have been likened to those who feel that a church is like a fire department, those who feel a church is like a police station and those who feel a church is like a home.

First of all, those who feel that a church is like a fire station want to make sure that there is one around, but there are few people who ever visit a fire station unless they are on the Volunteer Fire Department or are a part of the fire-fighting force and we do not go down to the fire department just to see it. But our attitude toward a fire department is that we hope that it does not have to be used, but if we have a fire, we want it to be available and be able to call them very quickly and have them respond and put out the fire. There are many people in every community who have the fire department approach to the church. These people want one there for the time when there is death, but a church ought to be like a home—we come to feed our soul, to train our mind, to discipline our life, to meet God and there in His presence to grow more like Him. I do not believe it is possible for any person of any faith to grow spiritually with the fire department or police department attitude toward church. The church is open every week. There is a message to every life. The message may discipline or it may put out a fire. But there is a far deeper meaning and a far more good that will come to every life and to every life in society that has taken place in the life of an individual who is a part of a crime. But, if we are the one

doing the speeding, we do not want them around. There are those who look at the church as a place to keep the rot and decay out of society. A church, for them, is to make sure that the atmosphere for youth is wholesome and good, that morals are taught and that the community is the kind of community that will train their young people in the things they want them to know. But some of these people would be the first to go to war if the church began to dabble in social issues and began to apply to themselves some of the same principles that they so desire for society as long as it does not bother them. It is good for the preacher to preach that the church should be a part of social action, but do not bother me or my house.

I wonder what is the real purpose of a church? We come not as we come to the fire department or not as we would call the police—in both instances it is the unusual when they are needed or it ought to be, but a church ought to be like a home—we come to feed our soul, to train our mind, to discipline our life, to meet God and there in His presence to grow more like Him. I do not believe it is possible for any person of any faith to grow spiritually with the fire department or police department attitude toward church. The church is open every week. There is a message to every life. The message may discipline or it may put out a fire. But there is a far deeper meaning and a far more good that will come to every life and to every life in society that has taken place in the life of an individual who is a part of a crime. But, if we are the one

Another group is those who look at the church as the police department. Now all of us want the other fellow that is speeding to be caught. If somebody breaks into our home we want the police force right there to remedy the rot in society that has taken place in the life of an individual who is a part of a crime. But, if we are the one

Gunnells Graduates

Camp To Run For Lt. Governor

Billy Joe Camp, president of the Alabama Public Service Commission, announced his candidacy for lieutenant governor at a gathering in his home town of Hanceville Tuesday, May 18.

Camp, who was formerly press secretary to Gov. George Wallace, said he would seek to "tip the scales back in favor of justice and good for the working men and women of Alabama."

Camp said he had found work through the legislative process to obtain more jobs, help senior citizens, education, and to fight crime.

Camp ended his remarks by pledging to always put the interest of the people first, and to be a leader worthy of their trust and vote.

While Camp praised the job done by the working people, he attacked the editorial writers and supreme court justices, who in his opinion support the utilities in their efforts to gain higher rates.

"I have not approved a single rate increase requested by the big utilities because they did not deserve the," Camp said.

Camp also said he would work with the elected governor to bring a team approach to solving the problems of our state.

Camp ended his remarks by pledging to always put the interest of the people first, and to be a leader worthy of their trust and vote.
